

Hood's Sarsaparilla

Cures all blood humors, all eruptions, clears the complexion, creates an appetite, aids digestion, relieves that tired feeling, gives vigor and vim.

Get it today in usual liquid form or chocolate tablets called Sarsatabs.

WORLD'S WHEAT YIELD

Will Be Above the Average, Says Department of Agriculture.

Washington, D. C., Sept. 22.—The world's yield of wheat this year will be above the average, according to the estimates of the department of agriculture, which has just issued the following statement on the crop from the world-wide standpoint:

"The world wheat harvest, which at the opening of 1910 was progressing southward in Argentina and Australasia, began north of the equator in February. Starting in British India, the operations gradually expanded over the magnificent wheat areas of the northern hemisphere, until they are now completed, excepting on small surfaces in the more northerly limits of its culture. The total acreage was doubtless the largest in history, the normal world area, about 235 million acres, having been heavily increased this year by additional sowings of spring wheat in Russia and Canada. Up to July, when a fair crop had already been generated in Argentina and an excellent one in British India, the prospect was for a world crop heavier than any preceding one, but drought that month in the spring wheat belts of North America and Russia and an unprecedentedly wet, cool summer in France are believed to have resulted in serious losses. When the final figures are made up, it will not be surprising to find the total world yield short of a high record (3,824,000,000 bushels) last year; the crop is reasonably certain, however, to go down in history as above the average."

GRAHAM-WHITE PLEASED

Says Country Between Boston and Providence Is Like England.

Providence, Sept. 21.—Leaving out of the cab window of the locomotive hauling the Knickerbocker express, Claude Graham-White, the English aviator, came into town yesterday afternoon. The courtesy extended by the New Haven road to the distinguished guest of the country was accepted and the aviator rode with the engineer, contrary to the ordinary railroad rules. While the train stopped here he chatted with the newspaper men and posed for a photographer.

"I am just seeing the country," he said. "No business in this; just fun that's all. And it has been a delightful ride. The stretch of country from Boston over here is quite like parts of England. Indeed, the likeness struck me very much, and it's a fine bit of country."

"My trip over to New York will be a brief one. I am going to take an air trip next Saturday, starting from Squam, the scene of the recent big meet. Early in October I am going to fly at the Brockton fair. That's what I have decided on now."

ABRUZZI GOES TO A HOTEL

All the Parisian Rumor Mongers Are Straightway on the Job.

Paris, Sept. 22.—The duke of the Abruzzi and Paris Times. He went at once to the hotel du Rhin, where Miss Katherine Elkins and her mother have been stopping and where it is said they still are guests.

All the best guessers of the Paris newspapers are in full activity. Italians who saw the duke on his arrival said he had aged considerably in the last two years. He looked carelessly toward a group of reporters, none of whom addressed him. Mrs. Elkins is reported to be ill.

MORE CENSUS STATISTICS

Figures Announced for Erie, Altoona, McKeesport and Williamsport, Pa.

Washington, Sept. 22.—Population statistics of the thirteen census were issued yesterday by the census bureau for the following cities:

Erie, Pa., 66,925, an increase of 13,792, or 26.3 per cent. over 52,733 in 1900.

Altoona, Pa., 62,127, an increase of 13,154, or 35.8 per cent. over 38,973 in 1900.

McKeesport, Pa., 42,694, an increase of 8,407, or 24.7 per cent. over 34,287 in 1900.

Williamsport, Pa., 31,860, an increase of 3,103, or 10.8 per cent. over 28,757 in 1900.

Women as Well as Men are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling all about Swamp-Root, from the thousands of testimonial letters received from sufferers who found Swamp-Root to be just the remedy needed. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

TAFT HITS "PORK BARREL"

He Declares Its Days Should Be Numbered

POSITION ON WATERWAYS

Condemns Legislation for Special Interests—Selfish Combinations of a Majority Also Denounced.

Cincinnati, Sept. 22.—Refreshed by a good night's sleep, President Taft early yesterday began receiving calls from personal friends, with whom he had been intimate during his residence here. There was no hint of politics in any of these visits.

He declined to discuss his meeting with Colonel Roosevelt in New Haven on Monday.

Last evening the president dined with Congressman Nicholas Longworth at the latter's home.

Yesterday afternoon he delivered an address in music hall, in which he commended the Ohio valley exposition, the project for the deepening of the Ohio river, and referred to the last river and harbor bill, the like of which he said he would not again sign. "The days of the pork barrel should be numbered," the president added.

OLD GUARD GETS A RUDE SHOCK

Schenectady County, in Barnes' District, Instructs Its Delegates for Roosevelt.

New York, Sept. 22.—The old guard leaders, who are fighting for control of the Republican convention at Saratoga next week, were admittedly surprised yesterday, when the news reached them that the supporters of Theodore Roosevelt had carried the Schenectady county Republican county convention and had instructed its delegates to the state convention to support Roosevelt for temporary chairman to favor direct primaries.

Schenectady and Albany counties comprise the 25th congressional district, which is represented on the Republican state committee by William Barnes, jr., one of the most aggressive of the old guard leaders.

Yesterday's defeat at the primaries of Vice President Sherman, the old guard candidate for temporary chairman of the state convention, in his home district in Oneida county, was not altogether unexpected, but the loss of Schenectady county yesterday was a surprise even to the progressives there.

Estimates of the old guard, made yesterday before the Schenectady returns, gave Mr. Sherman 541 of the 1,015 delegates. After the returns, the progressives went over the list and figured out that Mr. Roosevelt would have 529 votes to 486 for Mr. Sherman.

The contest has now sharpened to a point where a few delegates will hold the balance of power, and the efforts to swing into line some of the counties still doubtful will be continued vigorously until the roll is called in convention.

MONEY TO BOTH PARTIES.

Metropolitan Contributed to Democratic and Republican Funds.

New York, Sept. 22.—The admission that the Metropolitan Street Railway company not only had made contributions to the campaign funds of both the Republican and Democratic state organizations, but that its president had been called on repeatedly to take up stock accounts of \$20,000 and \$30,000 carried by certain individuals, inferentially legislators, was made yesterday by H. H. Vreeland, former president of the company, before the committee now investigating legislative grafters here. Mr. Vreeland thought that he had taken up in this fashion accounts aggregating \$230,000, but could not remember of whom. Another of the day's witnesses, W. W. Cole, former treasurer of the Street Railway association, also suffered from loss of memory, and was disinclined to admit knowledge that \$8,000 contributed by the Metropolitan to the railway association had been entered on the books as having been paid in satisfaction of the claim for injuries.

LORIMER OUT OF CLUB.

Directors Accept Withdrawal and Indorse Roosevelt Affair.

Chicago, Sept. 22.—Senator Lorimer's resignation was accepted by the Hamilton club Tuesday night. Every one of the 15 directors of the club was present at the meeting at which the matter was taken up, and every one stayed through the whole sessions of almost five hours. The board also indorsed the action of President John H. Patton in withdrawing the invitation to the senator to attend the Roosevelt banquet. It was said that this resolution was adopted unanimously by a rising vote, but no information whatever was obtainable from President Patton or from Secretary M. O. Slocum as to the circumstances that surrounded the acceptance of the resignation.

STRAUSS AVOIDS RUSSIA.

Ambassador to Turkey Refuses to Accept Passport Offered Him.

London, Sept. 22.—A special dispatch from Constantinople says that Oscar S. Strauss, the American ambassador to Turkey, abandoned a proposed visit to Russia because he refused to accept the privilege of a passport from the Russian government.

Ambassador Strauss left Constantinople Sept. 3, for a holiday in the United States. At an earlier date, dispatches from St. Petersburg stated that the Russian ministry of the interior had published an order permitting the diplomat, who is an adherent of the Jewish faith, to visit the Russian capital.

CANNON STILL STANDING PAT

Says New Tariff Act Needs Neither Apology Nor Explanation and Is Proud Of It.

Danville, Ill., Sept. 22.—Speaker Joseph G. Cannon, in accepting his twentieth nomination for Congress yesterday, said the present tariff needed no defense and declared agitation for its revision dangerous to the welfare of the country. He said in part:

"The tariff contest to-day is just what it has been for fifty years—a contest between protection and free trade. The agitation for another tariff revision, or another attempted revolution in our revenue policy, is just as dangerous to the welfare of the whole people as was that of 1894, when the Wilson tariff was enacted."

"I have no defense to make of the Payne law, if it needs none. It is the enactment of the pledge made by the Republican national convention in 1908. It is in keeping with the policy of protection, which the Republican party has maintained since the correct revenue policy ever since the election of Abraham Lincoln. In fact, it is in harmony with the very first revenue legislation of the first Congress under the administration of Washington. That policy is to protect the American producer from the unequal competition of the foreign product, in order that we may keep our labor on a higher plane than is the labor of Europe, Asia, and the islands of the sea."

"The credit of a nation can be exhausted, as is that of an individual. While talking about conservation, would it not be well to see that our credit is conserved? We must pay as we go."

"Many talk of economy, but they are general, not specific, in their statements. We have got beyond the speculative stage of this question. It is now intensely practical, or will be after the first of November if a Congress is elected committed to go back to the reactionary policy of 1894, with the business conditions of to-day."

"I am not a demagogue, for I have faith in the good sense of the people, even when advised by those who are peddling novelties in governmental policies, to keep abreast of this age of publicity."

"NO NEED OF RECIPROCITY"

Strong Statement Is Made by Hendry

A CANADIAN SPEAKS

America Is Now Appealing, He Says. Formerly It Was the Dominion Which Had the Supplanted Place.

Vancouver, B. C., Sept. 22.—The proposal for reciprocity negotiations between Canada and the United States received a heavy blow at the hands of President John Hendry in an address at the opening Tuesday of the thirty-ninth convention of the Canadian Manufacturers' association. It will later be the subject of a resolution.

President Hendry said:

"I desire to emphasize the contrast between the reciprocity situation as it presents itself to-day and as it presented itself forty years ago. At that time it was Canada who came forward as the supplicant anxious to secure a market in the United States for her natural products. To-day it is the United States who comes forward as the supplicant, anxious to secure a market in Canada for her manufactured products. Canada today stands in no need of reciprocity with the United States."

The convention will last three days.

FINDS OF 1910 BASEBALL YEAR

Newcomers Who Have Made Themselves Solid with the Fans—Cole and Ford Greatest.

If as many good youngsters are unearthed next season as there have been this major league magnates will have little cause to complain. In all fifty-seven candidates were brought into the best circuits. A great many more were hauled in, of course, but after the weeding the net total depreciated materially.

Last year may have been exceptional in the number of men produced by the minor leagues. Fifty-seven tolerable ball players, with a star here and there, is an abnormal harvest for any one season. Yet it was not enough to fill the hiatus made by the departure of veterans.

Many Twirlers Make Good. The choicest recruits to enter in last year's influx for 1910 duty were pitchers. The Cubs secured Cole of Bay City, Southern Michigan league club, a

Tommy Burns Now a Promoter. North Brusso (Tommy Burns), the former Canadian lacrosse player and heavyweight champion pugilist of the world, who has organized an Indian lacrosse team for a trip to Australia, has engaged as manager and coach for the outfit Jimmy Murphy of the Toronto.

Tommy figures that his popularity, with the added attraction of a team of Canadian Indians, would mean heavy business in the antipodes, and the trip will be made during the coming winter.

Russell Ford, Greatest American League Pitcher of 1910 Season. young man who kept Chance's outfit going when all the veterans were having a hard time of it. Russell Ford is the sensation of the American league this season. Many

AN AWFUL RECORD

Every year thousands of men and women die of kidney disease who might have been cured if its presence had been discovered in time and a prompt treatment with Kidneys adopted. If you have backache, kidney trouble or other symptoms of kidney disease, begin using Kidneys immediately. Druggists and dealers sell it for 50 cents.

USUALLY ONE DOSE RELIEVES INDIGESTION

Heartburn, Gas, Dyspepsia and Headache Will Vanish and Your Stomach Will Feel Fine After Taking a Little Dose of Pepsin.

If your meals don't sit comfortably, or you feel bloated after eating, and you believe it is the food which fills you; if what little you eat lies like a lump of lead on your stomach; if there is difficulty in breathing after eating, eructations of sour, undigested food, and acid, heartburn, brash or a belching of gas, you can make up your mind that you need something to stop food fermentation and cure indigestion.

To make every bite of food you eat aid in the nourishment and strength of your body, you must rid your stomach of poisons, excessive acid and stomach gas, which sour your entire meal—interfere with digestion and causes so many sufferers of dyspepsia, sick headache, biliousness, constipation, griping, etc. Your case is no different—you are a stomach sufferer, though you may call it by some other name; your real and only trouble is that which you eat does not digest, but quickly ferments and sours, producing almost any unhealthy condition.

A case of Pape's Diapepsin will cost fifty cents at any pharmacy here, and will convince any stomach sufferer five minutes after taking a single dose that fermentation and sour stomach is causing the misery of indigestion.

No matter if you call your trouble indigestion, or the stomach, nervousness or gastritis, or by any other name—always remember that a certain cure is waiting at any drug store the moment you decide to begin its use.

Pape's Diapepsin will regulate any out-of-order stomach within five minutes and digest promptly, without any fuss or discomfort, of any kind of food you eat.

critics say he will be the best in the junior organization next year.

Cleveland was lucky in procuring good pitching talent. There are Harkness, Koestner, Fanwell and Mitchell.

In Stroud and Pernell Detroit has a pair of very passable shooters. There have been no pyrotechnics connected with their performances, but Jennings appears to be hanging on to them, and Hughes has a reputation of knowing baseball and its actors. Evans hasn't been given much of a chance by Manager Lake of the Boston Doves, but his record shows he is pretty fair.

Larry Gardner, second baseman of the Boston Red Sox, is one of the best infielders to break in this year. He is a finished fielder, shows finesse in putting the ball on the runner and can hit and run bases. Gardner's namesake, Earl, with the Yankees, is another very fair second sacker.

Of the third basemen, Bert Daniels, another of Stallings' selections, seems to be the star. Pittsburgh obtained a stable youngster in McKetchnie, third baseman with Wheeling last year. The Central leaguer isn't fracturing the fences or anything of the sort, but he makes an occasional hit when it counts and he can field like Wagner.

Sharpe, traded by Dreyfuss to Boston, is the premier first sacker. Jake Daubert, who evaded both the Naps and Giants, finally landing with Brooklyn, is a close second. Flynn of the Pirates is following at Daubert's heels. Newnam, the Texas boy with the St. Louis Browns, gives promise.

Lewis and Campbell Are Good. Duffy Lewis of the Red Sox and Campbell of Pittsburgh are the two best outfielders developed. These two will probably be wonders next year. Great things are also expected of Jack Dalton, the Des Moines gardener, with Brooklyn. Jack Graney of the Naps has proved himself a Class A man.

Roach of the Yankees is undoubtedly a better short fielder than Russell Blackburne of the White Sox. In fact, Blackburne has been pretty much of a flake, but Comiskey has hopes that the former Providence wonder may yet earn his purchase price.

As usual, catchers have been mighty scarce this year. The only one worth speaking about is big Ed Sweeney of the Highlanders. My, how this boy can hit and throw and pick up bunts! He's not far from being the best in the league behind the bat.

All in all, Duffy Lewis and Russell Ford are the stars of the American youngsters, while the bright lights of the newcomers in the National league are Cole and Campbell.

Tommy Burns Now a Promoter. North Brusso (Tommy Burns), the former Canadian lacrosse player and heavyweight champion pugilist of the world, who has organized an Indian lacrosse team for a trip to Australia, has engaged as manager and coach for the outfit Jimmy Murphy of the Toronto.

Tommy figures that his popularity, with the added attraction of a team of Canadian Indians, would mean heavy business in the antipodes, and the trip will be made during the coming winter.

HISTORY OF WORLD'S SERIES

The world's series will be staged in October, and it will be the sixth clash between American and National league champions.

The Boston Americans won the first series from Pittsburgh in 1903. The New York Nationals beat the Philadelphia Americans in 1905.

The Chicago Americans scored over the Chicago Nationals in 1906. The Chicago Nationals then turned in and redeemed themselves by whipping the Detroit Americans twice. Last year the Pittsburgh Nationals beat the Detroit Americans.

This makes four wins for National league teams and two for American league representatives.

The Chicago team of 1910 is practically the same ball club that lost the world's championship to the Chicago Americans in 1906 and won it twice from the Detroit Americans in 1907 and 1908.

Too Warm for a Heavy Hat Too Cool for a Straw

What are you going to do about it?

You'll not study long if you drop in here and let us put before you our great assortment of handsome caps.

The cap is the popular headgear for the between season—not too warm, not too cool.

TRUTH ABOUT OUR SNAKES.

We Have Been Doing Great Injustice to the Rattler and His Kindred.

Romance revels in the peril of the unknown. Lapped about with the armor-plate of civilization, the modern citizen mopes selfishly, like a child beguiling himself with ogre tales, upon the terrors which lie just beyond his ken. Avid for sensation, he peoples the remoteness of forest and mountain with malign and destructive creatures, whence has grown up an extensive and astonishing literature of snake and insect poison lore.

"Deadly" is the master word of the cult. The rattlesnake is "deadly." The copperhead and moccasin are "deadly." So is the wholly mythical puff adder. In hardly less degree is the tarantula "deadly," while varying lethal capacities are ascribed to the centipede, the scorpion, the kissing-bug and sundry other forms of insect life. The whole matter is based upon the slenderest foundations. I don't mean by this that these ill-famed species are wholly innocuous. It would be highly inadvisable to stroke a kias from a copperhead or to stroke a tarantula's fur the wrong way. But one could do it and live to boast of the achievement. Pseudo-science to the contrary notwithstanding, there is no living thing within the boundaries of the United States of America whose bite or sting is so deadly or with one possible exception even probable death.

There are five varieties of venomous serpents in this country: three of them Crotalids, and two belonging to the Elaps family. The Elaps are rather rare. The Crotalids (rattlesnake, moccasin and copperhead) are common, and of the widest geographical distribution. Yet, on the basis of actual evidence, the amazing fact stands out that only about thirty persons, so far as is ascertainable, have ever died from snake bite in the United States.

Estimates vary as to the proportion of deaths to bites. Prentiss Wilson believes that something over ten per cent. of all persons bitten by venomous snakes in the United States die. As to how many of these succumb, not to the venom, but to the misdirected efforts of misguided friends at treatment—an extremely important differentiation—he lacks the data upon which to base a reckoning. S. Weir Mitchell's figures indicate 8.7 per cent. mortality for rattlesnake bite. This would make the venom about as dangerous as the toxin

ALL MY PIMPLES GONE

Girl Tells How a Blotchy Skin Was Cleaned by a Simple Wash.

"I was ashamed of my face," writes Miss Minnie Pickard of Altamahas, N. C. "It was all full of pimples and scars, but after using D. D. D. Prescription I can say that now there is no sign of that eczema, and that was three years ago."

D. D. D. has become so famous as a cure and instant relief in eczema and all other serious skin diseases that its value is sometimes overlooked in clearing up rash, pimples, blackheads and all other minor forms of skin impurities.

The fact is that while D. D. D. is so penetrating that it strikes to the very root of eczema or any other serious trouble, the soothing oil of wintergreen, and carefully compounded there is no wash for the skin made that can compare with this great household remedy for every kind of skin trouble.

D. D. D. is pleasant to use, perfectly harmless to the most delicate skin, and absolutely reliable. A 25-cent bottle will give you positive proof of the wonderful effectiveness of this great remedy.
